ABSTRACT

This compilation of ERIC Abstracts dealing with health is the ninth in a series that identifies research and instructional materials in selected occupational clusters. Seventy-nine documents were identified by means of a computer searches of "Research in Education" from 1967 to December 1972. Instructions on how to use ERIC reference products are included. Intended for use in career education curriculum development, these abstracts include lists of descriptors, identifiers, and other pertinent information about documents in the occupational cluster dealing with health. This document is related to 14 other cluster groupings, available as VT 018 790-VT 018 793, VT 018 897-VT 018 900, VT 018 902-VT 018 907 in this issue. (AG)

MISSION OF THE CENTER

The Center for Vocational and Technical Education is an independent unit on The Ohio State University campus. It serves a catalytic role in establishing consortia to focus on relevant problems in vocational and technical education. The Center is comprehensive in its commitment and responsibility, multidisciplinary in its approach and interinstitutional in its program.

The Center's mission is to strengthen the capacity of state educational systems to provide effective occupational education programs consistent with the individual needs and manpower requirements by:

- . Conducting research and development to fill voids in existing knowledge and to develop methods for applying knowledge.
- . Programmatic focus on state leadership development, vocational teacher education, curriculum, vocational choice and adjustment.
- . Stimulating and strengthening the capacity of other agencies and institutions to create durable solutions to significant problems.
- . Providing a national information storage, retrieval and dissemination system for vocational and technical education through the affiliated ERIC Clearinghouse.

This publication was prepared pursuant to a contract with the National Institute of Education, U.S. Department of Health, Education and Welfare. Contractors undertaking such projects under Government sponsorship are encouraged to express freely their judgment in professional and technical matters. Points of view or opinions do not, therefore, necessarily represent official National Institute of Education position or policy.

PREFACE

Finding and using relevant information frequently is a major task for curriculum specialists, teachers, administrators and students. The Center for Vocational and Technical Education is dedicated to making useful and vital information accessible so that it may be used to improve school practices.

The Center has assembled, under one cover, research materials and instructional materials related to the Health occupational cluster. The materials included in this compilation, in the form of abstracts, are selections from Abstracts of Instructional Materials in Vocational and Technical Education (AIM) and Abstracts of Research Materials in Vocational and Technical Education (ARM) from 1970 to June, 1972.

Other compilations of abstracts in the occupational cluster series, of which this is a part, include the areas of arts and humanities, construction, government, transportation, communication, trade, finance, education, natural resources, welfare, recreation and entertainment, product services, personal services, and manufacturing.

We are indebted to Allen B. Moore, project director, Supportive Information for the Comprehensive Career Education Model, and David H. Miller, Information Specialist who coordinated the compilation of this publication.

We hope that this publication will prove valuable to you in your particular endeavor.

INTRODUCTION

This compilation of ERIC abstracts is the ninth in a series of publications which identify research and instructional materials dealing with selected occupational clusters. The 15 cluster areas included in the series have been identified by educational specialists as a means of suggesting a structure for career education curriculum development.

Other compilations of ERIC abstracts are available for the following cluster areas:

- . Natural Resources--available as VT 018 791
- . Arts and Humanities--available as VT 018 790
- . Construction (Construction Process) available as VT 018 792
- . Government (Administrative Body) available as VT 018 793
- . Transportation--available as VT 018 907
- . Communication--available as VT 018 897
- . Trade (Marketing) available as VT 018 898
- . Finance (Banking) available as VT 018 899
- . Education--available as VT 018 900
- . Welfare--available as VT 018 902
- . Personal (Human) Services--available as VT 018 903
- . Product Services--available as VT 018 904
- . Recreation and Entertainment--available as VT 018 905
- . Manufacturing--available as VT 018 906

INDEX/RETRIEVAL TERMS

This compilation of abstracts represents selected documents identified from a search strategy which included the following ERIC terms:

Health Occupations
Health Facilities
Subprofessionals
Program Guides
Teaching Guides
Nurses
Nurses Aids
Medical Assistants
Curriculum Guides

Each ERIC document indexed by certain combinations of these terms resulted in a computer "hit". Each time a "hit" was registered, an abstract along with its complete bibliographic citation was printed. Each abstract included in the initial computer printout was screened for relevance by information specialists at The Center prior to the development of this compilation. For a detailed explanation of computer searching see VT 018 425, ERIC Instructional Package for Vocational Educators.

How to Use ERIC Reference Products

Each ERIC reference publication includes:

1. Document Resume Section containing abstracts and bibliographic information
2. Subject and Author Index Section

Each resume presents information about a document's content, its source and availability. A sample resume on the following page is explained in detail.

The indexes help to locate the abstracts by page numbers and accession numbers. These indexes are: Subject Index, Author Index and Conversion of Document Number Index. Index terms used in the subject index are ERIC descriptors. Each document has been assigned several of these descriptors; therefore, each document title appears in the subject index several times.

The full texts of documents are available from the original sources or from the ERIC Document Reproduction Service (EDRS) as microfiche or xerox reproductions.

Document Ordering Instructions

All documents cited in this compilation of abstracts are available in their full text. Availability is by one of the options listed below:

1. ORIGINAL COPY FROM PUBLISHER OR SUPPLIER

These documents have an availability listed in the resume. Often such documents are not available by any other means.

2. MICROFICHE AND HARD COPY REPRODUCTION

Documents with ED numbers are usually available individually on microfiche (\$0.65 a title) or paper copy (xerox - \$3.29 per 100 pages or fraction thereof) from:

ERIC Document Reproduction Service (EDRS)
P. O. Drawer O
Bethesda, Maryland 20014

Orders must specify ED number.

3. MICROFICHE SETS

Documents with VT numbers only are not available as individual microfiche, but most are part of VT-ERIC microfiche sets.

A microfiche set contains all the documents announced in a single issue of Abstracts of Instructional Materials in Vocational and Technical Education (AIM) or Abstracts of Research Materials in Vocational and Technical Education (ARM) which are not available by one of the options outlined above. These documents are filmed continuously in VT number order, and each set is assigned a single ED number.

VT-ERIC microfiche sets are available

- a. In any complete collection of ERIC microfiche.
- b. As VT-ERIC microfiche sets purchased individually.
- c. From institutions (e.g., state research coordinating units) which have the VT-ERIC microfiche sets and are willing to provide microfiche duplicates of individual VT-numbered documents.

ABSTRACT: A 13-MEMBER ADVISORY COMMITTEE WITH THE ASSISTANCE OF SIX CONSULTANTS DESCRIBED THE ROLES AND DUTIES OF THE PHYSICAL THERAPY ASSISTANT, EVALUATED THE NEED AND FEASIBILITY OF PROVIDING A TRAINING PROGRAM, AND PROPOSED A TRAINING CURRICULUM FOR A MICHIGAN COMMUNITY COLLEGE. A SURVEY REVEALED THAT AN ESTIMATED 17,000 ASSISTANTS WILL BE NEEDED BY 1975, BUT THE NATION IS CURRENTLY ABLE TO ADD ONLY ABOUT 500 PHYSICAL THERAPISTS ANNUALLY. THE SHORTAGE IS EVEN MORE ACUTE IN MICHIGAN, WHERE PHYSICAL THERAPISTS WERE REPORTED AS ONE OF THE FIVE MOST URGENTLY NEEDED PERSONNEL IN MICHIGAN HOSPITALS. IN ORDER FOR THE COMMUNITY COLLEGE TO MEET THE NEED, SEVERAL RECOMMENDATIONS WERE MADE WITH RESPECT TO PLACEMENT OPPORTUNITIES, STUDENT SUPPLY, CLINICAL AFFILIATION, STAFFING REQUIREMENTS, FACILITIES, AND CURRICULUM. THE COMMITTEE PROPOSED A 65-SEMESTER HOUR PROGRAM OF WHICH 33 SEMESTER HOURS WERE EXISTING COURSES.
